MUFOM VISION

To make a point of modernity and continuous renewal, internalize ethical values, set quality awareness, to be recognized and preferred nationally and internationally and become a qualified faculty.

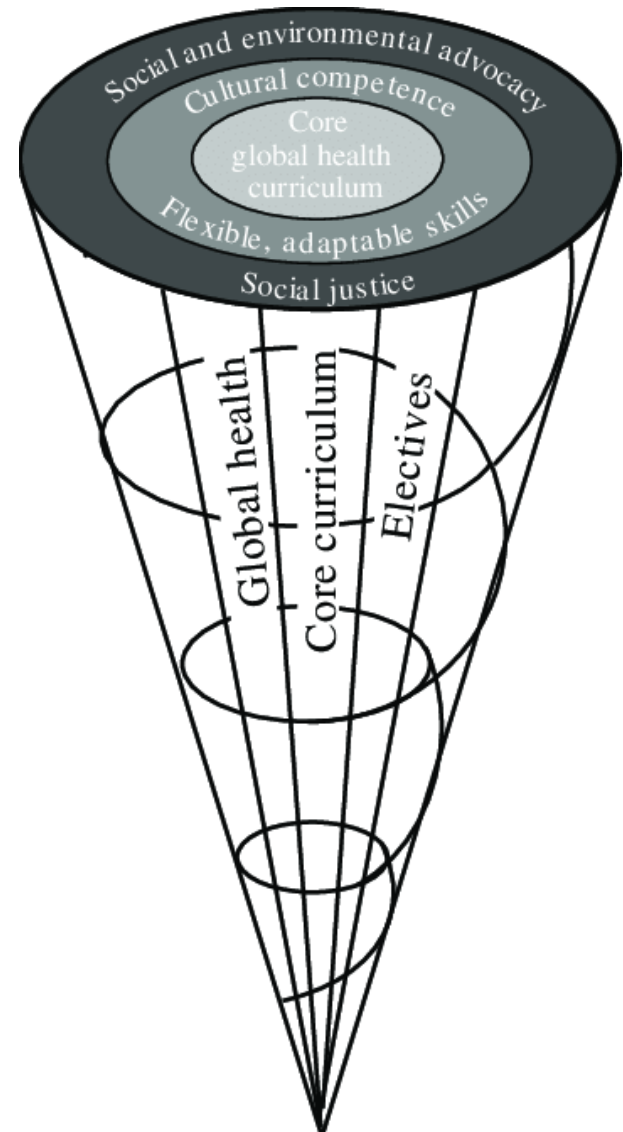

MUFOM MISSION

To offer a qualified service on education, research and health by continuous renewal and improvement of standards.

PROGRAMME AND CURRICULUM

Mersin University Faculty of Medicine is one of the prestigious and well-established medical schools accepting most successful students in Turkey. The outcome-based education program in our Faculty is horizontally and vertically integrated based on the functional properties of the organ systems. Curriculum has been designed on student centered and community oriented strategies.

Theoretical and practical education covers overview of basic medical sciences, normal structure and functions of the body, pathology and pathophysiology of the systems and introduction to the clinical sciences in first three years. The medical education in the fourth and fifth years consists of theoretical and practical training in all internal and surgical medical departments. Sixth year covers twelve-month internship program including ten main departments. Our university hospital provides an extensive educational and practical opportunity to our students.
